

**S. Gregory Herrman | Of Counsel**  
Intellectual Property & Technology

1825 Eye Street NW  
Washington, D.C. 20006  
+1.202.420.4793  
[gherrman@blankrome.com](mailto:gherrman@blankrome.com)

Greg Herrman focuses his practice on patent litigation and patent prosecution, with an emphasis in software and computer-related technologies. His substantial technical background makes Greg uniquely suited to handle cases and counsel clients on patent issues in these areas.

His practice embraces a wide range of other technologies, including medical devices, semiconductors, digital imaging, cellular communications, network security, and aviation.

## **Patent Litigation**

Greg has represented clients in district court, in post-grant proceedings at the Patent Trial and Appeal Board (“PTAB”), and on appeal at the Federal Circuit. He has been to trial several times and has experience arguing in Markman hearings and at the PTAB. He has negotiated resolution on behalf of several clients to avoid costly litigation.

Greg brings a unique skillset to each case: a substantial technical background and the ability to simplify complex technical issues for judges and juries.

## **Patent Prosecution and Counseling**

Greg is a registered patent attorney who manages the portfolios for several large companies. He has successfully defended patents at the United States Patent and Trademark Office (“PTO”) in both *inter partes* reviews and reexaminations.

## **Technical Experience**

Prior to practicing law, Greg worked for 10 years as a software engineer, developing business process, database, and graphic simulation software. He earned his master of science in computer science from George Washington University and his bachelor of science in electrical engineering from the University of Alabama.

## Pro Bono

Greg is active in Blank Rome's pro bono program that represents veterans needing VA benefits, successfully obtaining benefits in several cases. In recognition of his commitment to pro bono, he was named to the 2017 Capital Pro Bono Honor Roll, and awarded "High Honors" for his dedicated hours of service.

## Select Engagements

- SSL, in asserting its patent against Citrix where jury found patent to be valid and willfully infringed. *SSL Services, LLC v. Citrix Systems, Inc. et al.*, 2:08-cv-00158, Eastern District of Texas (Marshall).
